HYUNDAI

KONA Electric.

electric

The new standard.

It's more important than ever to lead the industry to a greener future.

Which is why we've been developing efficient electric motor systems, new ways to reduce emissions and improving sustainability for material sourcing, manufacturing and recycling.

Introducing our newest addition to the Kona family, the groundbreaking Kona Electric.

This impressive, 100% electric newcomer combines an exceptional driving range with comfort and style. Because nobody said eco-friendly motoring had to be boring.

Kona Electric.

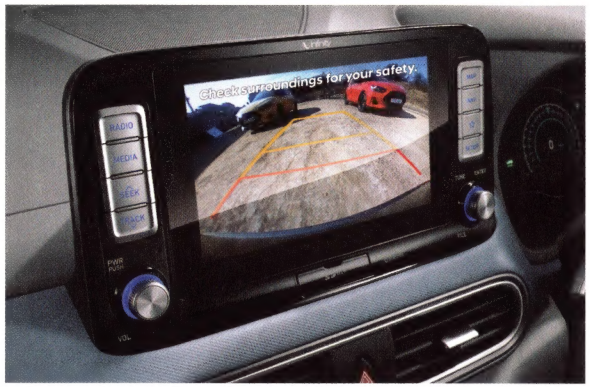
Safety matters.

There are two things we take very seriously: fun and safety.

It's fun to drive the Kona Electric, but it's also comforting to know Hyundai takes their commitment to safety seriously. The Kona Electric is made of ultra-high tensile strength steel and aluminium, and is fitted with some of the most advanced safety features.

A high-tech suite of Hyundai SmartSense™[1] features has been developed to help you be alert to and avoid any dangers on the road.

It includes: Blind-Spot Collision Warning (BCW), Driver Attention Warning (DAW), Forward Collision-Avoidance Assist (FCA), High Beam Assist (HBA)[2], Lane Keeping Assist (LKA), Rear Cross-Traffic Collision Warning (RCCW) and Smart Cruise Control (SCC) with Stop and Go.



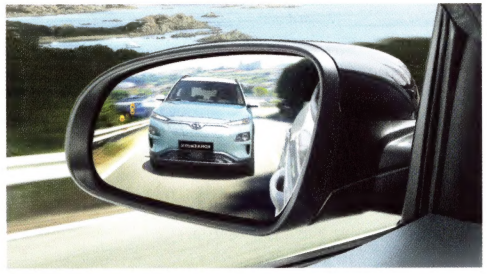
Rear view camera[3]

1. **Hyundai SmartSense™** is a registered trademark of Hyundai Motor Company. Safety features are not a substitute for attentive driving.
2. Only available on the Highlander variant.
3. Highlander variant shown.

Hyundai SmartSense™

Driver Attention Warning (DAW)
Detects reckless or fatigued driving to help prevent potential accidents. If the system detects inattentive driving patterns, an audible sound and message on the display panel will bring this to the driver's attention.

Smart Cruise Control with Stop & Go (SCC)
Maintains the speed set by the driver while keeping a safe distance from the car in front. After stopping, if the car in front departs within 3 seconds, it automatically continues to control the speed and distance.



Blind-Spot Collision Warning (BCW)
When driving at a speed of above 30km/h the BCW function will alert the driver to vehicles that enter the blind spot, including during lane changes. If the driver proceeds to activate the corresponding indicator lights, a flashing visual warning is provided and an audible alert is sounded.

Forward Collision-Avoidance Assist (FCA)
Uses radar and camera data to automatically activate the brakes when it detects dangerous and sudden braking by the car ahead or movement of pedestrians on the road.

Kona Electric.

Futuristic finish.

The Kona Electric is unlike any other drive. A progressive car like this truly deserves a modern, sophisticated exterior.

It's a uniquely styled SUV that flaunts a clean aerodynamic body, complemented with a closed radiator grille, for a smooth drive. It also features stacked top and bottom headlights and 17" alloy wheels that minimises wheel resistance.

With 6 vibrant exterior colours, the Kona Electric gives you the freedom to style your futuristic car your way. Exclusive to the Highlander it even offers a two-tone roof[1], allowing you to mix and match between Chalk White, Phantom Black and Dark Knight.

This is all to make your drive look as great as it feels.

Top: Front grille
Bottom: Stacked LED daytime running lights & headlights[2]

Top: Two-tone coloured roof[1]
Bottom: Alloy wheels

1. Two-tone roof colours vary depending on exterior colour chosen. Only available on the Highlander variant as part of an option pack and is not available with the sunroof.
2. Highlander variant shown.

A modern world inside.

The Kona Electric doesn't just look good from the outside. Its interior speaks a luxurious combination of space, convenience and technology.

Switching between Drive, Neutral, Reverse and Park has never been easier. The button type shift-by-wire system is located right where you need it to be, conveniently within the bridge-type centre console. This particular console reflects a sophisticated, high-tech design to make your drive a comfortable one.

For further comfort, heated and cooling seats[1] are available for the driver and front passenger. When you're alone you have the option of driver only air conditioning and heating, which helps reduce energy consumption and increase efficiency.

Your cabin is like your second home so to help you feel settled in, you have the choice between two interior colours: black or stone-grey/blue. You can fill your stylish cabin with fresh air and light using the glass sunroof[2], a great addition to any kind of road trip.

With its clean and simple design for maximum cabin comfort and convenience, the Kona Electric is ready for anything.

Style meets tech.

Everything in the Kona Electric has been fitted to make your life easier and more fun.

The seamless multimedia touchscreen display includes Satellite Navigation[1], Apple CarPlay™[2] and Android™ Auto[3] compatibility so you can access your phone, music and maps wherever you go. In front of you, a virtual cluster displays a range of computer information, a digital speedometer, and visual safety alerts from Hyundai SmartSense™[4].

Gaze ahead and you'll find the Head-Up Display that is only exclusive to the Highlander variant. It is an advanced display system projecting key information like your speed and Sat Nav directions, helping you from getting distracted.

Worrying about a low battery is also in the past. You can recharge your smartphone with the wireless charging pad[6] located in the front centre console.

No matter where you look, the Kona Electric presents a host of advanced features to keep you connected.

1. Available on Elite and Highlander variants. 2. **Apple CarPlay™** functionality requires software update. Apple CarPlay™ requires iPhone® 5 or subsequent model (lightning cable) in order to operate. Apple® and iPhone® are registered trademarks of Apple Inc. 3. **Android™ Auto:** Requires a device with Android 5.0 operating system or subsequent version, and USB cable in order to operate. Android is a trademark of Google Inc. 4 . **Hyundai SmartSense™:** is a registered trademark of Hyundai Motor Company. Safety features are not a substitute for attentive driving. High Beam Assist available on the Highlander variant. 5. **Head-Up Display**: Only available on the Highlander variant. 6. **Wireless charging pad:** Requires a Qi-enabled smartphone or adaptor to operate. Only available on the Highlander variant. 7. Highlander variant shown.

Charging made easy – at home or on the move.

Running on battery power, the Kona Electric is extremely cost-effective. With 3 easy ways to recharge, this efficient SUV leaves no room for doubt when it comes to driving long distance.

For convenience, LEDs beside the charge port show the battery status. The light surrounding the port turns green when it's charging and white once fully charged.

Home charging station.

The Delta In-Home charger is an optional accessory wall unit sold separately and is available to purchase from any Hyundai Blue-Drive dealership. This home charger improves charge times by utilising a high amperage power supply. It takes approximately 9 hours and 35 minutes for a full charge[1].

DC fast charging station.

The Kona Electric is capable of utilising a commercial DC fast charging station with a maximum charging capacity of 100kW. It can recharge to 80% in 54 minutes[2] when connected to a 100kW DC station or in 75 minutes[2] when connected to a 50kW station. You can use your multimedia touchscreen to find the nearest DC fast charging station[3].

Standard household socket charging.

Every Kona Electric comes with an In-Cable Control Box (ICCB). This emergency cable can be used to charge the car from a regular household 240V AC 3-prong power outlet, and takes approximately 28 hours for a full charge[2].

Programmable charging.

The multimedia touchscreen includes a scheduled charging function so you can capitalise on off-peak electricity rates. It gives you complete control over when you charge and for how long. This way, you can manage your own time and budget. There's also the option to disable the function temporarily if needed.

1. Kona Electric boasts a charging rate up to 7.2kW that takes just 9 hours and 35 minutes to charge. Charging times may increase if peak charging rates are not achieved.
2. Charging times may increase if peak charging rates are not achieved.
3. For more information on public charging options go to plugshare.com

Charging unit sold separately.

Charging on the move

DC Charger (CCS Combo 2)

Emergency Charging Cable

Charging speed: Trickle/Slow
Connection to car: Type 2
Estimated charge times:
Approx. 28 hours (full 100% charge)[2]

*Charging cables are sold separately excluding the emergency charging cable which comes standard in the boot.

150 Maximum Power (kW)

395 Maximum Torque (Nm)

One powerful ride.

The Kona Electric is quiet and smooth but best of all, it's got exceptional performanace and produces zero emissions.

Delivering the best driving range in its class, it's capable of approximately 449km[1] on one charge. You can start every journey with 395Nm of instant torque to get your adrenaline pumping. Combined with its aerodynamic body, the Kona Electric uses a high-efficiency power electric system and water-cooled battery to maximise driving range and performance. The water-cooled battery exchanges heat with the radiator and air conditioner to increase battery durability.

The integrated driving mode (ECO+) helps reduce energy consumption and may help to extend the driving range in an emergency. Other modes include ECO, Comfort and Sport – you're not restricted to one way of driving.

Using the paddle shifters on the steering wheel, you also have complete control over the level of regenerative braking. Regenerative braking allows drivers to charge their battery using kinetic energy collected whenever the brakes are applied or whilst the car is coasting.

The Kona Electric has exceptional noise vibration handling, making the car extremely quiet. That's why we have the Virtual Engine Sound System (VESS), a fun feature you can use to generate melodic driving sounds which also helps with pedestrian safety.

1. 449km: Figure based on WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) static laboratory combined average city and highway cycle test, which measure, energy consumption, range and emissions in passenger vehicles, designed to provide figures closer to real-world driving behaviour. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions.

Hyundai Auto Link Premium.

Hyundai Auto Link Premium, standard across all variants, is a smartphone app that lets you stay connected to your Kona Electric. It uses a pre-installed module that connects the Kona Electric's computer to your mobile phone. You can also find the latest information on charging stations via the Hyundai Auto Link Premium app.

Your drive, your way, made better.

- Allows remote engine start from smartphone.
- Allows cars' doors, lights and climate control to be handled remotely.
- Sets geo-fencing, guard mode (alert if vehicle is being tampered with) and valet mode.

Become an economical driver.

- Keeps track of your driving habits and energy consumption on each trip.
- Presents vehicle health report and alerts you to any signs of faults.
- Remotely monitors your Kona Electric's health.
- Provides analytical information so you can get the most out of your Kona Electric.

For more information head to www.hyundai.com.au/auto-link

1. Download app
from Apple Store or Google Play.
2. Set up login
with your details and VIN for registration and validation.
****
3. Set up PIN
for access to remotely control car from your smartphone.
4. Start driving
and enjoy the benefits of Hyundai Auto Link Premium.

Download the app for your iOS and Android device[1] today.

1. Device compatibility list can be found at www.hyundai.com.au/owning/auto-link. Use and availability of the Hyundai Auto Link Premium app may be subject to additional fees, terms and conditions. Find out more on www.hyundai.com.au/owning/auto-link. Some Hyundai Auto Link Premium services may not be fully available if the GPS system or other mobile device features are not working.

Relax, we'll take it from here.

Owning a car should an enjoyable, easy experience. So we built Hyundai iCare around that one simple idea and it's why comprehensive ownership benefits come standard with every one of our cars.

Our five-year, unlimited kilometre warranty[1] means you've got the freedom to go ahead and drive without having to keep an eye on the odometer.

Imagine knowing the maximum price of your next scheduled service, before pulling into the service centre. That's the advantage of our Lifetime Service Plan[2] – a clever Hyundai initiative that gives you transparency and peace of mind for the life of your car.

Since every new Hyundai is built to the highest standards, we've got the confidence to offer comprehensive customer service without exception. And that includes Sat Nav Update Plan[3], and a 24/7 Roadside Support Plan[4] for up to ten years when you service with us.

Servicing has never been easier or more convenient, with simple online bookings, fast 'while-you-wait' services, and a range of alternative transport options.

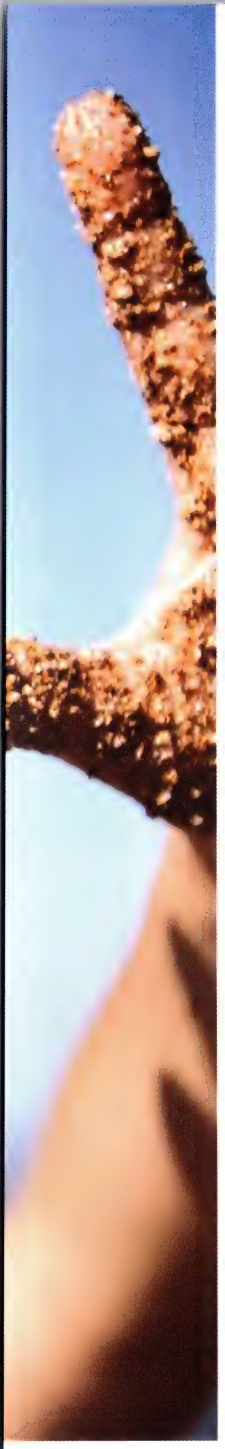
It's all designed to help you get the most out of your journey us.

The KONA Electric range comes with an 8-year/160,000km warranty (whichever occurs first)[5] on its lithium-ion polymer battery, giving you that peace of mind when you are driving your KONA Electric.

iCare

1. **5 year/unlimited km warranty:** Applies to new passenger vehicles used for private/domestic purposes. Excludes vehicles used at any time for "commercial application" as defined in the vehicle warranty policy, for which a 5 year/130,000km (whichever occurs first) warranty applies. Refer to full warranty terms & conditions for details and exclusions. 2. **Lifetime Service Plan:** For the benefit of Hyundai owners, Hyundai provides online quotes which specify the maximum price applicable for a vehicle's next scheduled maintenance service at a participating authorised Hyundai dealer and using genuine Hyundai parts (where required). Online quotes are available at hyundai.com.au, apply for a stated effective period only and may change after that effective period without notice. Standard scheduled maintenance services are of limited scope. The benefit of online quotes is available for all Hyundai vehicles, for their lifetime. 3. **Sat Nav Update Plan:** Maximum number of 9 updates delivered on an annual cycle which must be undertaken within 10 years of the vehicle's purchase. Complimentary map updates apply only if the vehicle completes a scheduled service at a participating Hyundai dealer. 4. **Roadside Support Plan:** Complimentary 12 months Roadside Support when you purchase a new Hyundai passenger vehicle (excluding rental buyers). Further Roadside Support extensions are available, each for 12 months from the date of a scheduled maintenance service at a participating authorised Hyundai dealer (unless vehicle is more than 108 months (9 years) from the original new car sale date, in which case entitlement to Roadside Support ends when vehicle reaches 120 months (10 years) from original new car sale date). 5. Covering defects in material and workmanship for the original vehicle battery.

Kona Electric.



Big help, for little Aussies.

Every time a new car is sold at one of our Dealerships, both Hyundai and the Dealer will donate part of the sale price to Hyundai Help for Kids.™*

Hyundai Help for Kids™*offers funding to child-focused organisations and charities working to improve the lives of children all over Australia – from supporting community initiatives, to providing much-needed medical equipment.

So when you buy a Hyundai, you're buying more than just a car. Together with Hyundai Help for Kids,™* you're empowering thousands of young Australians and giving them a better future.

Hyundai Help for Kids

*Hyundai Help for Kids™ is a registered trademark of Hyundai Motor Company.

Kona Electric.

Australia, in our DNA.

We're one of the biggest car manufacturers in the world – and one of the fastest growing global car brands.

We're also the only car company in the world producing its own steel, because we know the best steel makes for the strongest cars.

That's why we source the majority of our high quality iron ore from right here, in Australia's backyard. So now, when you buy a new Hyundai, you know you're driving a car that's directly connected to home.

ADR 81/02 test results are meant for comparison purposes only.

b. Range based on Australian Design Rule 81/02 static laboratory combined average city and highway cycle test (same as NEDC defined by UNECE R101/01), and may not reflect real life driving results. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. ADR 81/02 test results are meant for comparison purposes only.

c. Figure based on WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) static laboratory combined average city and highway cycle test, which measure, energy consumption, range and emissions in passenger vehicles, designed to provide figures closer to real-world driving behaviour. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions.

Dimensions	
Exterior	
Length	4180 mm
Width	1800 mm
Height (with roof rails)	1555 (1570) mm
Wheelbase	2600 mm
Wheel track - front / rear	1564 mm / 1575 mm
Minimum ground clearance (based on kerb weight)	158 mm
Approach / departure / ramp break over angle	16.6° / 32° / 14.6°
Interior	
Head room front / rear (w/ Sunroof)	1005 (965) / 957 mm
Leg room front / rear	1054 / 848 mm
Shoulder room front / rear	1410 / 1385 mm
Hip room front / rear	1355 / 1326 mm
Cargo area - VDA (minimum / maximum)	332 L / 1114 L
